DEVELOPMENTS

RSVPLANNER
FULL STACK HANDEBARS AND JAVASCRIPT APP

This application lets users input a location and view nearby events. The user can also create an account and sign in, with an email and password. Once the user has created an account they can post events of their own.

PASSWORD GENERATOR
FULL STACK JAVASCRIPT APP

This application serves to create a better sense of security for password keeping. This application is to include a responsive page that gives the user criteria for a password as well as generating one for the user.
